

Invitation to continue discussions of the COM-Day – 14th-25th April

Dear colleagues,

It was our pleasure to meet all of you at the COM-Day in Essen to discuss current subjects concerning communications and identify the most important challenges in our near future. Some topics probably could not be discussed sufficiently or conclusively. In order to give you the possibility to subsequently do so we would like to introduce you to “Direct to Hiesinger”.

What is “Direct to Hiesinger”?

“Direct to Hiesinger” is a dialog platform, via which all employees of ThyssenKrupp worldwide can submit their questions or suggestions directly to Heinrich Hiesinger and also discuss issues amongst each other. With this tool we promote a company-wide dialog across all Business Areas and Regions to take our internal communication one step further.

What do we have planned?

From the 14th until 25th April we would like to invite you to:

- discuss important topics concerning communications at ThyssenKrupp which could not be discussed at the COM-Day in sufficient depth
- and support us by simultaneously testing “Direct to Hiesinger” under real-life conditions.

The platform will be launched this summer – so until then, please use it only for our exchange subsequent to the COM-Day.

How does this work?

You can access “Direct to Hiesinger” at <https://directto.thyssenkrupp.info>. To login you need your 8-ID, your corresponding worknet password and an email address. Please find further information on benefits and functionality of “Direct to Hiesinger” in the attached PDF.

We look forward to a lively discussion and thank you for your support and feedback! If you have further queries, please turn to Sara Gleis (sara.gleis@thyssenkrupp.com).

Best regards,
Alexander Wilke
